# COMPLIANCE

We want your promotional gifts and giveaways to make an impact for all the right reasons. Every care is therefore taken to ensure all our products are safe to use, so you can distribute them with confidence. By meeting relevant compliance standards, we make sure every item is produced in a way that upholds your good reputation.

All our products comply with prevailing EU legislation, of which we want to highlight some important regulations that are connected to our main product categories:

- REACH on concerned products which stands for the Registration, Evaluation, Authorisation and Restriction of Chemicals.
- Cadmium level restriction regulations.
- WEEE which stands for Waste Electrical and Electronic Equipment.
- RoHS II which stands for Restriction of Hazardous Substances.
- Food contact material regulations that provide the legislative framework for food contact products.
- Formaldehyde level restriction regulations for example for timber products.
- PCP level restriction regulations for example for timber products.

Please note that the legislation mentioned above will not be further featured at individual product level on the pages in this catalogue.

The full compliance overview can be found on page 332-333 of the Bullet section.

# Printed Plasters

## The classic first-aid icon

Printed Plasters. A basic essential in everybody's first aid box, plasters provide comforting protection after a myriad of mishaps. They also present a quirky way of reminding people about your company's caring nature. At home, in the office or on-the-go.

The ability to decorate both the plasters and the packets or MiniKits they come in means your message gets through whether or not a minor emergency takes place.

All products conform to CE standards.

# Drinkware Insulation Chart

Based on successful retail drinkware pieces, we have designed a better way to drink with style. Whether you prefer your beverage HOT or COLD.

Insulation refers to how the materials and construction prevent temperature change – basically, the ability of a piece to keep a beverage at its original temperature, whether it’s hot coffee or ice water. Insulation is achieved through double-wall construction, which has two purposes – to eliminate condensation from cold beverages on the outer wall and maintain the temperature of the beverage within the inner wall.

There are several types of insulation, and we offer them all. It just depends on your budget and the type of performance you’re looking for in a drinkware product.
